

Instrument Approaches - What Can ATC Do For You?

Learn how to maximize the benefit from ATC while operating in the South Bend TRACON airspace. Specifically, the conduct of Instrument Approach Procedures during training and normal arrivals.

Seminar presentation by South Bend ATCT Certified Professional Controller Erin Rausch. Erin is also an ATP rated, former regional airline pilot and certified flight instructor.

Using her expertise as a controller and pilot, Erin will help you better understand the interaction between the controller and pilot.

Directions: From the round about on Lincolnway West enter airport on Airport Blvd. Turn left immediately past the Airport Inn & Suites and go to Progress Drive. Turn right on Progress Drive and then an immediate left into the Airport Safety Building parking lot. The building is attached to the south end of the large, grey Studebaker Hangar.

A message from the National FAASafetyTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
